So Simple... You can do this!™

Step 1 Location - Wall Cutout

PowerOUT - Determine TV wall mount bracket location.

Align between wall framing studs.

Use stud finder to determine in-wall obstructions

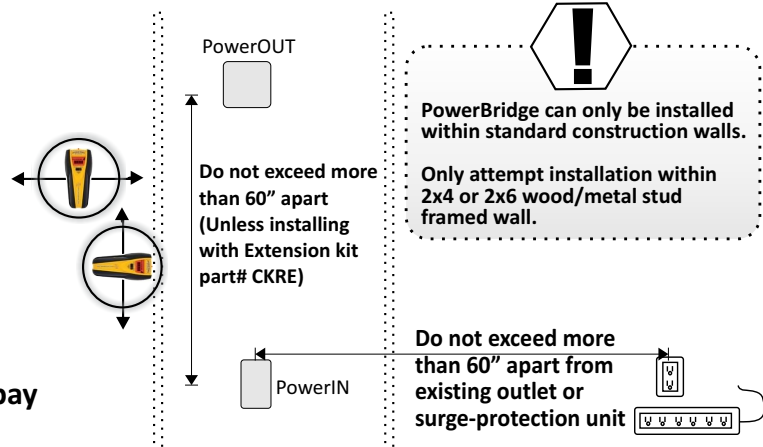

between framing both VERTICALLY and HORIZONTALLY.

Install in any direction, right/left, below, above,

next to TV wall bracket.

PowerIN - Align with upper PowerOUT within same stud-bay
no more than 60" apart.

Install within 60" from an existing power outlet or power-surge device.

Use supplied template sheet to mark area to cut out from drywall.

Use a level to maintain proper alignment.

Carefully use drywall saw or utility knife to cut along outside of line.

If insulation exists, remove or push completely away from the openings to allow proper flush mounting.

Step 2 In-Wall Installation

- A) Begin at the upper PowerOUT location.
Drop or wall-fish audio video cables and NM-type PowerWire (ROMEX) to the PowerIN location below.
Pull all cables out lower cutout.

Use NM-type building wire.
14/2 size wire only.
Copper wire only (CU)

Wire Connection - Assembly

- B) Strip NM-type PowerWire use Wire Strip Gauge on label.
Remove outer sheath and strip Black and White wires as shown.
C) Insert wire through funnel of back-box as shown.
D) Insert wires as shown on label into wire-ports of OUTLET.
E) Insert small black and white power-light wires with same color PowerWires as shown on label into openings of INLET.
F) Tighten all three screws to 12 in-lbs. securing wires.
G) Bend all three wires toward the cable-brush.
H) Slide back-box onto back, secure with the 4 supplied screws with supplied hex-tool
I) Insert tab into funnel, this snaps in place.

NOTE:

Kits supplied with NM wire are already pre-stripped

B

DO THIS FIRST

OUTLET

INLET

- J) Slide audio video cables through backside through CableBrush.
Allow for enough cable length out to connect to TV and Equipment.
K) Slide both wall plates into wall opening.
Use Flat-Blade screw driver to secure panel to wall.
Careful to not over-tighten.

Step 3 Plug it in

Plug supplied 6' PowerConnect cord into PowerIN.
Plug other end into existing grounded outlet or surge protector.
CAUTION-Risk of Fire-Only Use Cord Set Provided With This Kit or equivalent.

The PowerBridge In-Wall Extension is now energized.

Surge Protector

Existing Outlet

Plug TV power supply cord in to PowerOUT and connect AV cables to TV.
Follow wall mount manufacture instructions, install TV on wall bracket.

Plug in TV

Plug in Flat Angle Plug

Wall Cut-out Template:

Lay against wall, use a level on edge of paper to align.

Use a pencil to trace around edge.

Use drywall saw or sharp utility knife cut on the line.

Remove drywall section.
